EVENT GUIDELINES

CONTENTS

REGISTRATION	3
GENERAL RULES	4 - 6
NON-TECHNICAL EVENTS	7 - 30
TECHNICAL EVENTS	31 - 59
CULTURAL EVENTS	60 - 64
MEGA EVENTS	65 - 80

REGISTRATION

1) Standard pass

- Rs. 250 per pass.
- Participate in up to 4 events and for Tech night.
- Individual registration for both solo and team events.
- Includes non-technical, technical and cultural events except for mega events and sports events.
- An additional fee of Rs 250 is required to join extra 4 events.

2) Mega events

- Rs. 300 per pass.
- Individual registration for both solo and team events.
- One event + tech night.

3) Sports events

- Gully-Googly Rs. 1800 per team of 6 members including Tech night.
- Dunkin-Dribble Rs. 900 per team of 3 members including Tech night.

GENERAL RULES

- All participants must present a valid college ID for registration and verification purposes.
- Each event specifies the minimum and maximum number of participants allowed per team. Teams must adhere to these limits.
- Each event has a specified time limit for performance/setup. Exceeding this limit may result in negative marking or disqualification.
- In events requiring pre-submission of materials (such as soundtracks or audition links), participants must ensure timely submission according to the specified deadlines.
- Students from other colleges must ensure that they register and participate in at least one event to be allowed entry to the campus.
- Participants must refer to the master schedule before registering for events to ensure there are no clashes.
- For themed events, participants must adhere to the specified theme or topic in their performance or presentation.
- Participants must maintain a respectful and appropriate demeanor throughout the event. Any explicit, offensive, or disruptive behavior may lead to immediate disqualification.

GENERAL RULES

- Participants must bring their own instruments, equipment, or materials as required for the event. Any prohibited items specified by the organizers must be strictly avoided.
- The decisions made by judges and organizers are final and binding. Participants must respect and accept these decisions without contestation.
- Participants must adhere to safety and hygiene standards, especially in events involving makeup, hair styling, or physical activities. Proper sanitation and cleanliness are mandatory.
- Participants must arrive at the venue on time as per the schedule provided. Failure to report at the assigned time may result in disqualification.
- Participants must adhere to submission deadlines for materials, performances, or presentations. Late submissions may lead to disqualification.
- Participants must comply with any requirements regarding publicity, social media sharing, or public visibility associated with the event.
- Fair play, honesty, and sportsmanship are encouraged among participants. Cheating, plagiarism, or unethical behavior will not be tolerated and may result in immediate disqualification.

GENERAL RULES

- Participants should view the event as an opportunity for learning and improvement, regardless of the outcome. Constructive feedback from judges and organizers can help participants grow in their respective fields.
- Any sort of intoxication in the campus or the green room will lead to disqualification

NON-TECHNICAL EVENTS

Capture Clash

Capture Clash invites photographers of all skill levels to unleash their creativity and perspectives through captivating images. From novice to seasoned professionals, this event celebrates the art of visual storytelling.

EVENT GUIDELINES:

- This will be an individual event.
- Contestants should bring their own photography kits.
- Themes will be given on-the-spot.
- The photograph must be in jpeg or jpg format.
- Basic editing, including color enhancement and cropping of the photo, is acceptable, provided any such editing does not affect the authenticity and/or genuineness of the photo.
- The submission of the photograph should be done within due time. Failure to do this would lead to disqualification.
- The judgement criteria is based on the quality, creativity, and content that the photograph portrays.

TREASURE TREK

The Treasure Trek is an exhilarating adventure where participants unravel mysteries and uncover hidden treasures. Contestants embark on a thrilling quest, solving puzzles fueled by wit, teamwork, and quick thinking. Each discovery brings teams closer to victory, driven by the excitement of the hunt and the promise of glory.

EVENT GUIDELINES:

- Teams are limited to three members each.
- The event comprises four rounds, each with its own unique challenges.
- Detailed instructions will be provided at the venue, ensuring all participants are prepared.
- Judges' and organizers' decisions are ultimate and binding, ensuring fair play throughout the competition.

• Round 1:

- In this round, teams' capabilities and teamwork will be put to the test.
- It serves as an elimination stage, where only the top 50% of participating teams will advance.

• Round 2:

- This round will feature straightforward tasks designed to evaluate puzzle-solving and critical thinking skills.
- Of the teams that previously qualified, only half will progress to the next stage.

TREASURE TREK

- **Round 3:**

- Guidelines for the challenge will be disclosed upon arrival at the venue.
- Out of all participants, only the top 10 teams will advance to the subsequent round.

- **Round 4:**

- This final round will be a dynamic round, tailored for thrill-seekers.
- Detailed rules and instructions will be revealed at the venue.

BATTLEGROUNDS MOBILE INDIA

In the adrenaline-fueled battlegrounds of BGMI, players dive into heart-pounding action, navigating treacherous landscapes for victory. With every gunshot and strategic move, they forge alliances, showcase skill, and carve their legend in intense mobile gaming competition.

EVENT GUIDELINES:

- This event is divided into two phases: Qualifiers and Main Event.
- Qualifiers:
 - Features classic matches on the Erangel map.
 - The top four teams from each classic match will advance to the main event.
- Main Event:
 - The most anticipated title will be contested by the top 16 qualified teams. Over four matches played on different maps, the winners will be determined by the team with the most accumulated points.
- Maps:
 - Match 1: Erangel
 - Match 2: Sanhok
 - Match 3: Miramar
 - Match 4: Erangel
- Wi-Fi connectivity will be available but the management team will not be responsible for any issues related to Wi-Fi connectivity. Participants should be prepared to use their own mobile data in such cases.

BATTLEGROUNDS MOBILE INDIA

- Teams with unregistered players may face disqualification.
- During the online event, team members must refrain from using language that is offensive, insulting, or otherwise inappropriate.
- Participants must play all games to be eligible for prize winnings.
- The Tournament Administration reserves the right to change match start times at their discretion, with notification provided to all affected players.
- Any act of violence will result in immediate disqualification.
- Team members can only compete for the team they have enrolled with and cannot participate in multiple teams simultaneously.
- The use of triggers is strictly prohibited.
- Teams must capture screenshots of all results.
- Allegations against teams must be supported by proper evidence, such as death replays or screen recordings.
- Third-party apps, mods, and exploiting bugs are strictly prohibited, with disqualification as the consequence for such offenses.
- Game rooms will not be restarted for any reason, including ping issues, glitches, or late player or team arrivals.

GULLY - GOOGLY

In the maze of urban streets, gully cricket emerges as a raw and thrilling spectacle. With makeshift gear and unconventional play, matches unfold amid cheers from crowds. It's cricket at its most daring and exhilarating, where every shot defies expectation and every player embodies the spirit of the streets.

EVENT GUIDELINES:

- Each team consists of six players.
- The scheduled arrival time is 9 a.m.
- Failure to report at the assigned time will result in automatic disqualification for the team.
- Students from different colleges are allowed to form a single team.
- There are no sixes; only boundaries are considered.
- Runs can also be scored by running between the wickets.
- Bowling will be conducted underarm within the designated box.
- Common modes of dismissal include getting caught by a fielder, getting bowled, being run out or by hitting a six.
- One pitch caught in one hand is considered out.
- Fielders are positioned based on mutual agreement, often with variations due to space constraints.
- Each match consists of three overs per side.

GULLY - GOOGLY

- Fair play and sportsmanship are encouraged among players.
- Any form of vulgarity or misconduct will not be tolerated and may result in the disqualification of the offending team.
- If a match ends in a draw, a super-over will be played. If the super over also ends in a draw, the winner will be decided by a toss.

**TECHNICAL
EVENTS**

SyncLine Sprint

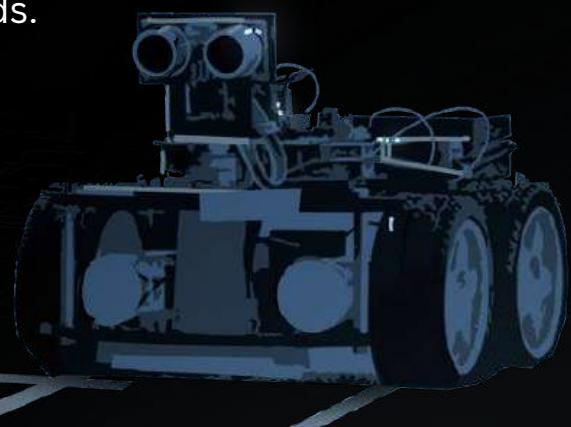

"SyncLine Sprint" essentially conveys a high-speed and competitive race where robotic entities are programmed to synchronize their movements and follow a designated line or path. It suggests an exciting and dynamic event where precision, speed, and coordination play crucial roles in determining the winner.

GENERAL RULES

- All the team members must be full-time students at an accredited University/College (UG or PG).
- There are no restrictions on the number of teams from the same Institute.
- The team should contain 3-5 members in total.
- Every individual in the team must have registered ID card of the event. Without which entry will be denied at the arena.
- When one team is performing, other teams are not allowed to enter the arena.
- The competition will consist of 3 rounds.

ROUND DESCRIPTION

- Each round will have a different map which will be disclosed on the day of the event.
- Round specific rules will be explained just before the start of that round.
- All the rounds will have black line/trajectory on white arena.

SyncLine Sprint

EVENT GUIDELINES

- One robot cannot be shared by two or more teams, moreover the robot cannot be ready-made.
- Once a robot has crossed the start line it must remain fully autonomous, else the team will be disqualified.
- The width of the line/trajectory of the arena is approximately 3 cm.
- Participants should arrange their own batteries, and power supply will be provided on site.
- The robot must remain intact until results are announced.
- The decision of the judges is considered final and no arguments will be entertained.

SCORE CALCULATION

- The score calculation is as follows:

$$\text{Score} = (\text{Time taken to reach finish line}) + (\text{penalty})$$

STUDENT COORDINATORS

DirtDash RC

"DirtDash RC" essentially conveys a fast-paced and exciting off-road racing event where participants navigate their RC vehicles through dirt tracks or challenging terrains. It suggests a thrilling and competitive environment where speed, skill, and control are key factors in determining the winner. This name captures the essence of an adrenaline-fueled race that is sure to attract both participants and spectators who enjoy the excitement of off-road RC racing.

GENERAL RULES

- All the team members must be full-time students at an accredited University/College (UG & PG).
- Every individual in the team must have registered ID card of the event. Without which entry will be denied at the arena.
- There are no restrictions on the number of teams from the same Institute.
- The team should contain 2-4 members in total.

ABOUT EVENT

- Design a wired or wireless bot within specified dimensions.
- Manual operation.
- Team that takes the least time to complete a lap of the track wins.

EVENT GUIDELINES

- Participants are only allowed to use self-made RC vehicles.
- Only students from the same college can form a team.
- Individual cannot be a member of more than one team. Robots cannot be shared by two or more teams.
- Only one run on track for each team.
- Judge's decision will be final.

DirtDash RC

BOT SPECIFICATIONS

- Dimensions of the bot should not exceed the box size of 30*30*30 cm (L*B*H).
- Weight of the bot should be under 3 kg with +5% tolerance incl. Battery if powered on board.
- Bot can be powered on board or off board.
- Battery voltage should not exceed 12v.

SCORE CALCULATION

- The score calculation is as follows:

Score = (Time taken to complete the track) +(penalty)

STUDENT COORDINATORS

Mevil Dsa	9482905974

BlitzBot Soccer

"BlitzBot Soccer" essentially conveys a high-speed, intense, and dynamic version of soccer or football played by robots. It suggests a fast-paced and exhilarating game where robotic players engage in rapid actions, quick maneuvers, and energetic gameplay, making it an exciting and thrilling spectacle for spectators and participants alike. It's a test of strategy, skill, and agility, sure to captivate both participants and spectators alike.

GENERAL RULES:

- Team size: 2-4 members.
- Judges and organizers' decisions are final.

BOT SPECIFICATION:

- Size limitations: Width: 30cm, Length: 30cm, Height: 20cm.
- Weight limit: within 5kg.
- 10% tolerance on dimensions and weight; exceeding leads to disqualification.
- Wired or wireless bots allowed.
- Bots must not be made from Lego parts or ready-made assembly kits.
- Participants can use creativity for design.
- No hitting mechanism allowed.
- Minimum wire length of 5m for wired bots.
- Voltage between 2 points must not exceed 12.5V.
- AC supply not provided.

ARENA SPECIFICATION:

- Arena dimensions: 12*8 feet.

BlitzBot Soccer

CONTEST RULES:

- Each game consists of 2 halves, each lasting two minutes.
- Bots must not remain immobile for more than 10 seconds.
- Pushing opponent's bot into the goal post allowed.
- Controller's name announced before the game; cannot be changed during the game.
- One member should hold bot's wires during the game; wires should remain slack.
- Technical timeout of 2 minutes per match; extension leads to point deduction.

JUDGING CRITERIA:

- 4 points awarded for scoring a goal.
- point deducted for damaging opponent's bot intentionally.
- Bots not allowed to enter their own goal post; warning followed by point deduction.
- If bot goes above opponent or tangling of wires occurs, reset to initial position.
- Highest points determine the winner.
- Decisions by coordinators and judges are final.
- In case of a tie, extra one minute for golden goal; first team to score wins.

ROBOCLASH

"RoboClash" is not just an event; it's a spectacle that brings together the cutting-edge world of robotics and the thrill of competition. This high-energy showdown features robotic entities showcasing their agility, strength, and innovative design as they engage in intense battles on the arena floor. Whether you're a robot enthusiast or just looking for an exciting and unique experience, "RoboClash" promises to deliver an unforgettable event filled with excitement, innovation, and competitive spirit. Join us and witness the future of robotics unfold before your eyes!

GENERAL RULES:

- Team size: 2-4 members.
- Judges and organizers' decisions are final.
- Videos will be taken by the coordinator
- Teams are not allowed to take videos or photos.

BOT SPECIFICATION:

- Size limitations: Width: 30cm, Length: 30cm, Height: 20cm.
- Weight limit: within 5kg.
- 10% tolerance provided on dimensions and weight; exceeding this leads to disqualification.
- Wired or wireless bots allowed.
- Cannot be made from Lego parts or ready-made assembly kits.
- Participants can use creativity for design.
- No hitting mechanism allowed.

ROBOCLASH

- Minimum wire length of 5m for wired bots.
- Voltage between 2 points must not exceed 12.5V.
- AC supply not provided.

ARENA SPECIFICATION:

- Arena will be revealed on the event day.

CONTEST RULES:

- Each game consists of 2 halves, each lasting 1 minute and 30 seconds.
- Controller's name announced before the game; cannot be changed during the game.
- One member must hold bot's wires during the game, which should remain slack.
- Technical timeout of 2 minutes per match; extension leads to point deduction.
- Technical timeout cannot be taken during the match.
- Bot should not remain immobile for more than 20 seconds.

JUDGING CRITERIA:

- 4 points awarded for pushing opponent's bot completely outside the arena.
- 1 point deducted for damaging opponent's bot intentionally.
- The team with the highest points wins.

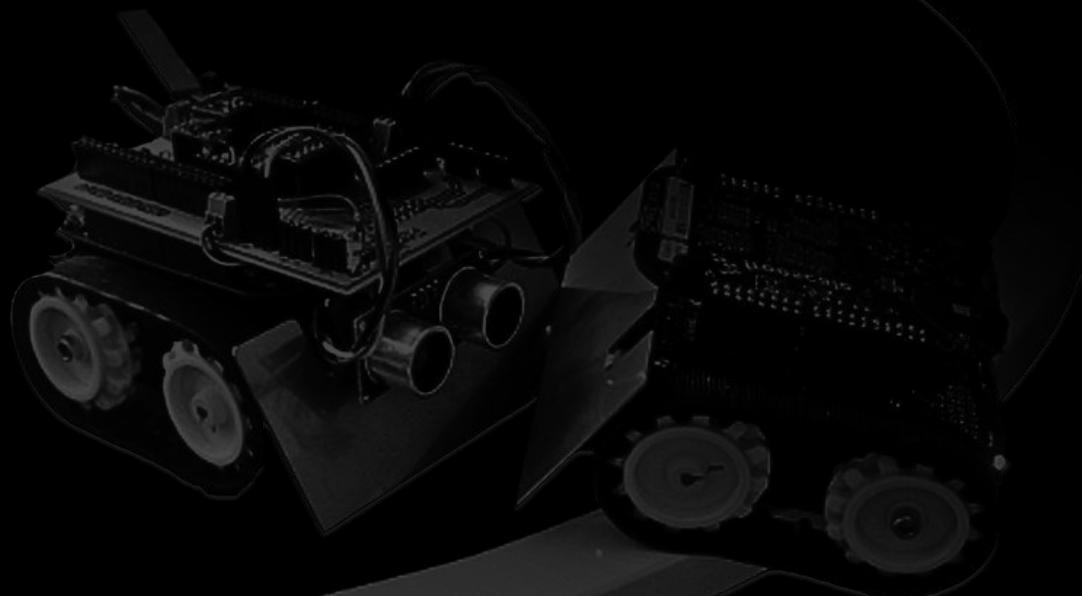

ROBOCLASH

- Decisions by coordinators and judges are final.
- In case of a tie, an extra one minute is provided; first bot to push the opponent wins.

One Piece is a technical event in which each team must build a boat that can sustain the weight without sinking in the water.

So, pirates... build a boat to survive the grand line and find the ONE PIECE

GENERAL RULES:

- No. of participants in a team: 3 – 4 members
- Each team will be provided with a set of materials to build their boat.

INSTRUCTIONS:

- Each team will be provided with a set of materials to build their boat. They can use any combination of the provided materials to construct their boat.
- The dimensions for building a boat will be given on spot.
- The goal of the challenge is to design and build a boat that can sustain the weight without sinking in the water tank.
- The time allotted for each team will be 25 minutes. Once time is up, players must stop building and set their boats aside.
- Players will take turns testing their boats in the water. The boat must be able to carry the given weight.
- The team whose boat sustained the most weight wins the challenge.

EVENT GUIDELINES:

- Boats cannot be modified after the testing phase begins.
- Boats must be able to float on their own without being held or supported.
- Players must not interfere with each other's boats during testing.
- Players must follow all safety guidelines when building and testing their boats.
- Teams should report 10 minutes prior to the start of the event.

"ZenFlow" is a technical event in which each team will be given a set of pipes and joints using which the participants need to carry water from the source to the destination, through a set of obstructions. It suggests a harmonious and intuitive approach to problem-solving, design, or any activity where achieving a smooth and effortless flow is paramount. This name captures the essence of a calm and balanced approach to optimizing and enhancing various aspects of life, work, or technology.

GENERAL RULES:

- Team size: 3 members
- No. of rounds: 1 (6 minutes to complete the task)
- Judges and organizers' decisions shall be final.

EVENT GUIDELINES :

- The team should take the water from a given source to destination with the help of PVC pipes and joints, through a set of obstructions (2 ½ cubic feet).
- Out of the three destinations, participants will be given a destination based on the slots picked.
- The pipes need to pass along two sides of at least two cubes.
- Use of materials other than the provided pipe connections are not entertained.

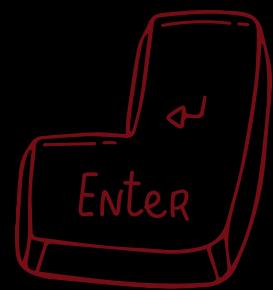

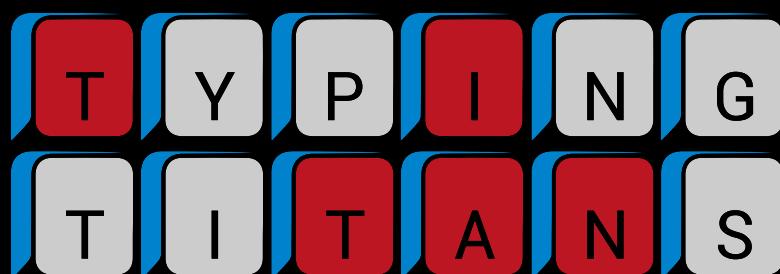

- Each participant will get a maximum time of 6 minutes to complete the event.
- Participants should report 15 minutes prior to the start of the event.
- Screening round will be present if the number of teams exceeds 16.

JUDGING CRITERIA:

- Minimum time used for fixing the pipes.
- Minimum time taken by the water to fill the destination (Up to marked level).
- Minimum number of PVC pipes used (Tie-breaker).
- Minimum number of joints used (Tie-breaker).

Typing Titans is an exhilarating competition designed to test the typing speed, accuracy, and precision of participants. This event aims to celebrate the art of typing while fostering healthy competition among students. Participants will showcase their typing prowess as they race against the clock and fellow contestants in a series of challenging typing tasks.

GENERAL RULES:

- The event is open to all college students enrolled at an accredited college or university.
- Each participant must register individually for the contest.
- Participants must refrain from using any aids or software that may enhance their typing speed or accuracy.
- Any form of cheating or plagiarism will result in immediate disqualification.
- Decisions made by the judges will be final.
- Participants are expected to conduct themselves in a respectful and sportsmanlike manner throughout the event.
- Any behavior deemed inappropriate or disruptive will result in immediate disqualification.

FORMAT:

- Typing Titans will consist of multiple rounds, each with different typing challenges.
- Participants will compete in heats, with the top performers advancing to subsequent rounds.
- The final round will determine the ultimate Typing Titan.

TYPING CHALLENGES:

Participants will face various typing challenges, including:

- **Speed Typing:** Participants type a given passage as quickly and accurately as possible within a specified time limit.
- **Accuracy Test:** Participants type a passage with a focus on accuracy rather than speed.
- **Test of speed and accuracy:** Participants type a passage and shall be assessed on speed and accuracy along with efficiency in typing within the provided time frame.
- **Special Characters Challenge:** Participants type a passage that includes special characters, symbols, and numbers.

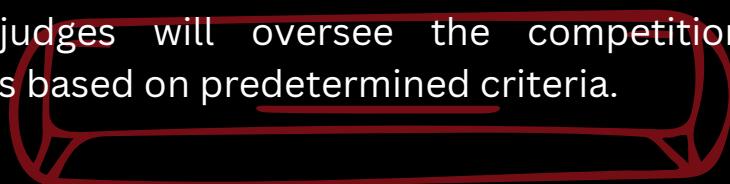

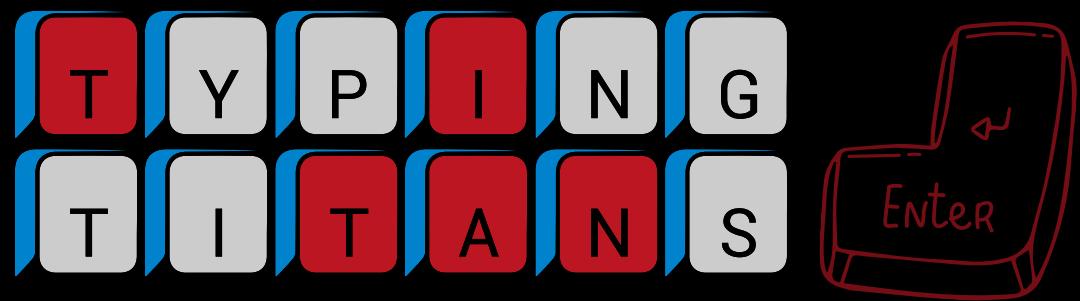

EQUIPMENT:

- Participants are required to bring their own keyboards.
- Only a single keyboard per participant is permitted.
- Participants shall not borrow keyboards from other participants during the contest. Such activities will lead to the immediate disqualification of both the participants.

JUDGING AND SCORING:

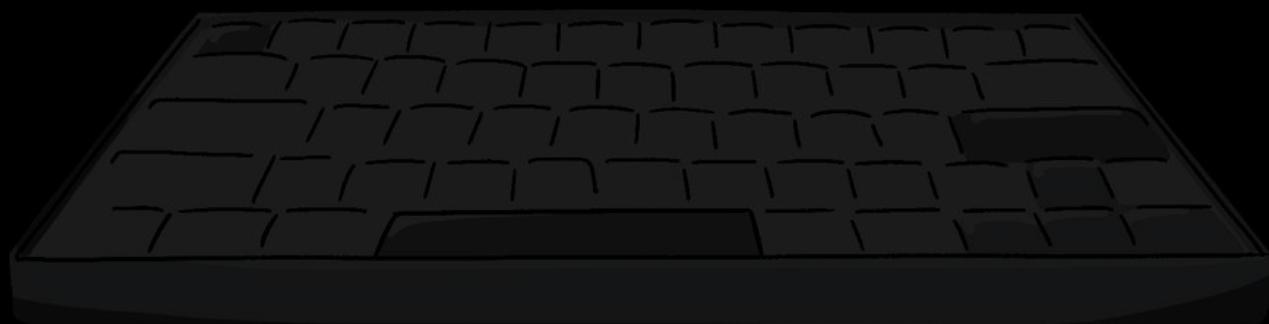

- Participants will be scored based on their typing speed, accuracy, and completion of the assigned tasks.
- Each typing challenge will have its own scoring criteria, which will be explained before the start of each round.
- Qualified judges will oversee the competition and assess participants based on predetermined criteria.

HYDROBLAST

Prepare to embark on an exhilarating journey as you unleash the power of water to propel your very own rocket into the skies. Ever heard of water rockets? Picture this: harnessing the sheer force of pressurized water for a thrilling liftoff. But hold on tight; while the concept might sound simple, crafting the ultimate water rocket that dominates the competition is anything but easy. Think you're up for the challenge? Brace yourself, because this is no walk in the park. It's time to push the boundaries and see if you've got what it takes to master the art of rocketry... or maybe, just maybe, it's more than meets the eye.

GENERAL RULES:

- Teams must consist of no more than 4 members.
- All team members must be from the same institution.
- The decisions made by the coordinators and judges regarding scoring, gameplay, and timing are conclusive.
- Decisions made by judges or volunteers will be upheld without argument.
- Failure to adhere to the rules will result in disqualification of the teams.

EVENT GUIDELINES:

- Water rockets may incorporate multiple stages, allowing for the use of parachute, gliding, and other mechanical launching mechanisms.
- Booster mechanisms are permissible.

HYDROBLAST

- Electronic components and other chemical components are restricted from use.
- Fire or explosives are strictly prohibited.
- Teams are responsible for bringing their own launchpads, as they will not be provided on the event day.
- Each team must bring their own pumps; pumps will not be provided.
- The volume of the rocket must not exceed 2.5 litres.
- The working fluid for the rocket must be water.

ROUND DESCRIPTION :

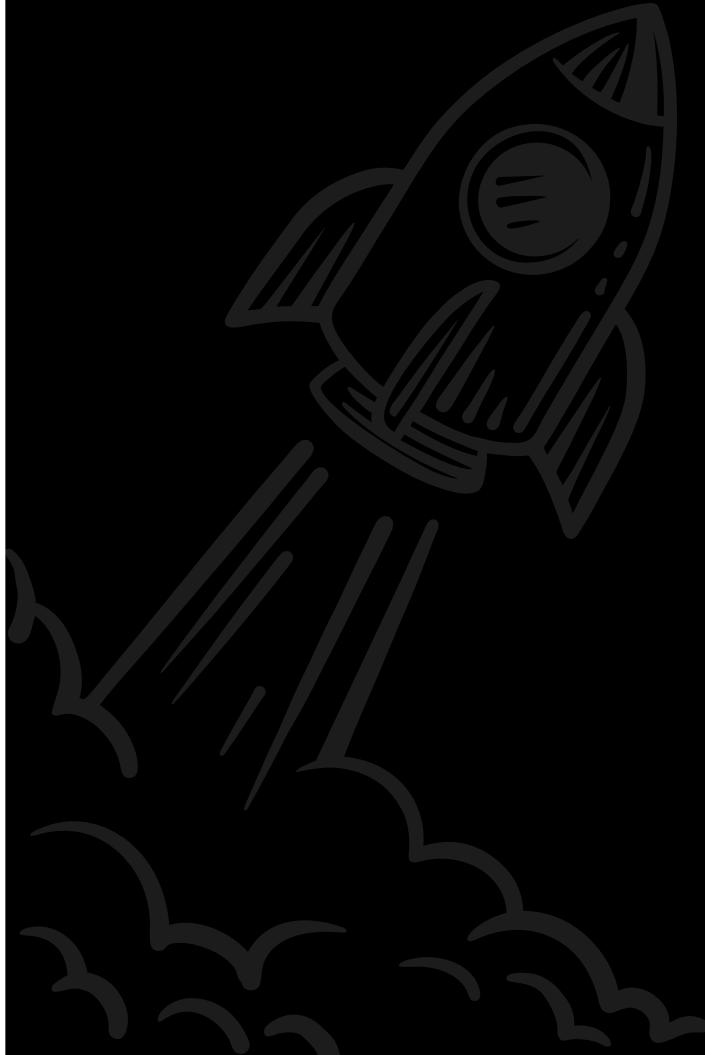

- **Round 1 - Distance Challenge:**
 - Teams will launch their rockets to achieve maximum horizontal distance.
 - Score calculation: Round 1 score = (Max horizontal distance covered) * (time of flight)
- **Round 2 - Target Accuracy:**
 - Participants aim to hit a designated area located 65 meters away.
 - The target zone consists of three concentric circles:
 - Innermost circle with a diameter of 10 meters (30 points).
 - Middle circle with a diameter of 15 meters (20 points).
 - Outermost circle with a diameter of 20 meters (10 points).

DRONE CLASH

"Welcome to the adrenaline-fueled world of Drone Racing! Grab hold of a cutting-edge drone and zoom towards the finish line with unmatched speed. With each point you earn, your flight gets faster, but brace yourself – as your score climbs, so does the track's intensity. To conquer the skies, you'll need a drone that's not just quick, but also nimble and steady within the set dimensions. Prepare to ascend to triumph by arriving early and staking your claim as the unrivalled pilot!"

PROBLEM STATEMENT:

The task at hand is to construct a drone within defined dimensions, ensuring it maintains aerodynamic stability for a flawless flight experience.

EVENT FORMAT:

- The initial round will feature an obstacle course.
- The details of the second round will be revealed at the event location.

COMPETITION RULES:

- Any individual passionate about drones is welcome to participate.
- Individuals have the freedom to fly solo or assemble a crew of up to 5 members.

DRONE CLASH

- No prerequisites or limitations exist for team composition.
- Each bot gets one shot; Multiple entries for the same bot are not permitted.
- Ground scrapes and obstacle bumps will dock points or add time penalties, depending on the obstacle's difficulty level.
- The arena is strictly off-limits to participants.
- No test flights allowed; it's all or nothing when the race begins.
- Keep your power game strong- All teams are advised to keep a pair of charged batteries.
- To claim victory, your drone must cross the finish line. Timings and scores are based on race completion.

DRONE SPECIFICATIONS:

- Off-the-shelf drones are prohibited.
- Frame dimensions must fall within the range of 200 mm to 500 mm.
- Battery or power supply should not surpass 6S or 24V.
- Operation must be within the line of sight.
- Radio telemetry range should be between 900MHz to 2.4 GHz.

TERMS AND CONDITIONS:

- The organizers' verdict stands as the ultimate authority and is binding for all participants, with the prerogative to amend any or all stated rules and conditions.
- Any modifications to the rules will be communicated to participants via their registered email addresses.

DRONE CLASH

- The event organizers retain the authority to pause the competition if safety concerns arise, with contestants expected to comply with instructions from event coordinators; failure to do so will result in immediate disqualification.
- All obstacles are tailored to suit the drone's size, allowing ample room for maneuverability in the event of crashes or accidents.
- The organizers bear no responsibility for any damage sustained by drones during the race.

BUSINESS BAY

"Business Bay" essentially conveys a vibrant and strategic location where businesses thrive, ideas flourish, and networking opportunities abound. It suggests a dynamic environment that fosters collaboration, growth, and innovation across various industries and sectors. This name captures the essence of a thriving business community and hub for entrepreneurial activities, making it an attractive and memorable name for a business district, incubator, or networking event.

GENERAL RULES:

- Team size: 2-3 Members.
- Plagiarized content found in any video will lead to immediate disqualification
- Decision of the judges will be final in all regards.

ROUND DESCRIPTION :

- **Round 1**
 - A written test based on logos and taglines.
 - The time limit to solve is 30 minutes.
 - Top teams will qualify to the next round.
- **Round 2**
 - The qualified teams will have to create an advertisement video of a particular technical product.
 - The time limit for the video is 3 minutes.
 - A period of 1 day will be given to prepare the video.

BUSINESS BAY

- There is no restriction on the number of participants in the video.
- Participants should be present in the video.
- **Round 3**
 - This round is the presentation round and the final round of the competition where the top teams will be presenting their products in front of the “BAYS”.
 - Product should be the same which is used in the second round.
 - Time limit to present is 5 minutes in which 2 minutes for presentation and 3 minutes for the judges.

JUDGING CRITERIA:

- Target market and problem-solving capability.
- Creativity and uniqueness in the idea proposed.
- Time limit
- Soft skills and presentation

BLACK MIRROR

A two-day story-based alternate reality gaming event with cryptographic puzzles, competitive programming problems, and codebreaking. Engage in this easy fun-filled adventure while challenging your problem-solving prowess along the way.

NOTE:

- Day 1 : hosts two elimination rounds (half day event, ideally Webinal Hall).
- Day 2 : hosts three story-based rounds (full day event, Webinar Hall).

GENERAL RULES:

- Teams of minimum two members maximum three members.
- Any department / semester combination allowed.
- All students must belong to the same college.
- Judges' and organizers' decisions shall be final.

ROUNDS DESCRIPTION:

- **Round 1 (Day 1)**
 - Easy choice-based quiz on Black Mirror show and basic programming.
 - We shortlisted the top 40 teams.
- **Round 2 (Day 1)**
 - PDF code- and cipher-breaking round.
 - We shortlisted the top 20 teams.

BLACK MIRROR

- **Round 3 (Day 2)**

- Teams are informed of the role based ARG gameplay.
- Game play includes competitive programming problems, math puzzles, location-based puzzles on campus, etc

CADVENTURES

"CADventures" essentially conveys the idea of embarking on exciting and innovative journeys or experiences in the realm of Computer-Aided Design. It suggests exploration, creativity, and the limitless possibilities that come with using CAD technology to bring ideas to life and create new designs or prototypes.

GENERAL RULES:

- All the team members must be full-time students at an accredited University/College (UG or PG).
- There are no restrictions on the number of teams from the same Institute.
- The team should contain 1-2 members in total.
- Every individual in the team must have registered ID card of the event. Without which entry will be denied at the arena.
- The competition will consist of 2 rounds.

ROUND DESCRIPTION:

- **Round 1**
 - Each team will be given sketches of the model and assemblies that has to model by designers.
 - Teams should replicate the model from the given sketch with proper dimensions defined in the sketch.
 - Teams can use any of the allowed software to complete the assembly design within the time duration of 90 minutes.
 - Based on the completion and accuracy of assembly points will be allotted and teams will be selected for next round.

CADVENTURES

- **Round 2**

- Four topics for modelling will be provided out of which only one has to be designed.
- In the FINAL round there will be four themes provided based on Aeronautical/Aerospace, Mechanical, Automobile and one general theme.
- Out of 4 themes, teams have to select only one theme and prepare CAD design.
- CAD model will be judged by the jury based on accuracy, design, creativity, and innovation. In case of plagiarism, team will be disqualified immediately, and no certificates will be provided.

JUDGING CRITERIA:

- CAD model will be judged by the jury based on accuracy, design, creativity, and innovation.
- In case of plagiarism, team will be disqualified immediately, and no certificates will be provided.
- The judges will award points based on the size, completeness, difficulty, ANSI standards, and drawing skills.

Prepare for an electrifying showdown at Tech Titan Tussle ! Watch as manually controlled RC bots engage in fierce combat, showcasing their style, control, and aggression. Only the most skilled teams will emerge victorious in this ultimate display of robotic prowess.

EVENT GUIDELINES:

- Team size: 3-6 members.
 - The competition will follow a knock-out format.
 - Maximum duration will be specified by coordinators and must be strictly adhered to.
 - A safety inspection will be conducted before the event and bots deemed unsafe will be discarded.
 - Bot will be declared immobile if unable to exhibit linear motion of at least one inch within 10 seconds.
 - Event organizers can stop matches deemed dangerous.
 - Teams not ready at the call time are considered to have declared a walkover.
 - Compliance with organizers' directives is mandatory; violations lead to disqualification.
 - LEGO kits, readymade kits, etc., are not permitted; however, readymade gear boxes are allowed.
-
- **Arena Specifications:**
 - Arena dimension: 12 ft x 12 ft.

TECH TITAN TUSSLE

- Bot Specifications:

- Weight limit: 3lb and 8kg categories.
- Only wireless bots allowed.
- Attack mechanisms permitted, independent of bot motion.
- Safety checks at judges' discretion.

- Battery and Power Supply:

- Voltage between any two terminals must not exceed 36V.
- No restriction on power consumption.
- Use of IC engines in any form is not allowed.

- Weapon System:

- Various weapons allowed (magnetic, cutters, flippers, etc.) with exceptions and limitations.
- Prohibited items include liquid projectiles, flame-based weapons, etc.

Remember those thrilling moments watching RC planes zooming through the skies, sparking your imagination, and fueling your dreams of flight? Now, Propeller Palooza is offering you the perfect stage to bring those dreams to life! Showcase your creativity and passion by crafting your own RC plane and putting it to the test. See if your creation can not only take flight but also demonstrate practical functionality. Don't miss this exciting opportunity to let your imagination soar and make your childhood aspirations a reality.

EVENT GUIDELINES:

- The teams can have a maximum of 4 members.
- A team member cannot be a part of any other team.
- Teams must have registered through the official Tiara'24 website. Spot entries are not allowed.
- This competition evaluates the skill of the pilot and manoeuvrability of the aircraft.
- The competition will be conducted in 3 rounds, and the final points will be the sum of points earned in each of the 3 rounds.
- Each team will be given 2 attempts in round 2 and 3, and best of the scores will be considered from each round.
- The same aircraft should be used in both rounds, and it should be the same one as in the abstract. In case of damages during the competition, teams can repair the same aircraft but are not allowed to use a replacement. The repaired aircraft should be ready in time for the turn.
- The aircraft must land at the designated area in both the rounds.
- Teams are suggested to carry additional components (motors, batteries, propellers, etc.) to avoid last-minute surprises at the venue. You will lose time/ attempt if you are not ready at your turn.
- The use of 2.4 GHz radio is required for all aircraft competing. If the participants want to use any other frequency, they must inform the organisers in advance.

- Receivers installed in the aircraft must be in 'receiver mode only'.
- Metal propellers are not allowed.
- Organisers will check all the systems (Servos, motors, etc.) for functionality before the competition. If found not working, teams will be dismissed from the competition.
- Please do not share parts of your aircraft (motors, ESC, Battery etc.) with other teams. Each team is expected to carry all the equipment needed to participate in the competition.
- In view of stringent safety requirements, if a pilot flies out of the designated flying zone, which includes the overhead of the event organising and control section, as mentioned at the venue, he/she is disqualified. He/she must immediately turn back and land safely.

- **Design Constraints:**

- The competition requires participants to design and fabricate an RC aircraft. Readymade models are not allowed.
- T/W <= 1 without payload. (If excess thrust is measured, the throttle curve must be adjusted accordingly to achieve the required thrust)
- Propeller diameter should not be greater than 13 inches.
- Wingspan should be a maximum of 1.2 m.
- The aircraft can have powered take-off with a landing gear or can be launched manually by a person standing at ground level.
- Only electric motors are allowed. Using IC engines or any other means of providing thrust is prohibited.
- There will be deduction in the points for the variation of the aircraft from the submitted design report.

- Use of gyroscopes (gyros) and programming assistance in receivers is prohibited.
- Programming for any step of the mission is not allowed.
- Use of FPV or any other support for flying is not allowed.

- **Round 1: Abstract Submission**

- Abstract must have standard formatting with margin of 1 inch on all 4 sides, Times New Roman font with font size 12 and line spacing 1.5.
- The abstract must not exceed 10 pages excluding the cover page and table of contents page. With each extra page beyond the specified pages, 1 point will be deducted for each page.
- The abstract must include detailed information of the aircraft along with its dimensions, airfoil, material used, etc. and a section explaining how the aircraft was built must be included.
- Along with the abstract, participants must also send a zip file containing at least 5 and no more than 10 photographs of the aircraft while it is being built. Participants should be clearly visible in the pics.
- The total points allotted to this round is 20.
- The file should be in PDF format only and the filename should be according to the following convention:
ABSTRACT_SKY_SURGE_.pdf
- Abstracts must be e-mailed to **team.aero@sjec.ac.in** with the subject **ABSTRACT_SKY_SURGE_** by **30 April 2024**, failing which 1 point will be deducted for each day after the last date.

- **Round 2: Limbo Maverick**

- Pilots must fly the aircraft without the payload in this round.
- The aircraft must fly through the limbo to gain points.
- There will be a limbo (Limbo 1) of dimension 5 metre x 4 metre (width x height) and one more limbo (Limbo 2) of dimension 3 metre x 2 metre (width x height).
- A maximum time of 5 minutes will be given for this round.
- On each successful clearing of Limbo 1, the team will be awarded 10 points, and on each successful clearing of Limbo 2, the team will be awarded 30 points.
- The aircraft can go through the limbos any number of times and in any direction, and the score will keep adding up on each successful clearing of limbos.
- There will be a safe score of 30 points, i.e., if the aircraft crashes at any point after scoring 30 points, those 30 points will be awarded.
- The pilot must land the aircraft in the designated area before the end of 5 minutes to claim all the points scored in this round.
- The total points awarded in this round will be the sum of points gained by clearing limbos.

- **Round 3: Accurate Payload Delivery**

- In round 3, the aircraft must fly for at least 60 seconds carrying the payload and then drop the payload near to the centre pole.
- The payload will be a single golf ball of weight 45g and a diameter of 43mm. (Will be provided by the organisers)

- The payload must be placed inside the aircraft and no part of the payload must be visible from outside.
- In this round, the points are calculated based on the accuracy of the drop of the payload.
- A maximum of 3 minutes will be given to complete the attempt.
- A pole of height 3 metres will be placed at the centre of the flying arena.
- After flying for 60 seconds, the pilot must drop the payload near to the pole.
- The points will be based on how close the first impact of the payload to the pole.
- The points are calculated based on this formula: {10000 / Distance of first impact of the payload from the pole (in cm) }
- 10 points will be awarded for safe landing in the designated area.
